PROFESSIONAL EXPERIENCE

Maple Leaf Foods / 2013 - Present

SAP Solutions Architect

2022 - Present

Maple Leaf Foods Cloud ERP, integration and enterprise AI

- Lead solution architecture for the on-premise migration to SAP RISE Cloud ERP Private: landscape and network design, migration strategy, cutover, integration and security.
- Delivered the end-to-end deployment of SAP Joule across RISE PCE and SAP cloud solutions, aligning identity, connectivity and integration.
- Oversee solution architecture for Revenue Growth Management, connecting SAP IBP, Business Data Cloud and identity services through SAP Integration Suite.

SAP Basis / Consultant

2021 - 2022

Maple Leaf Foods Technical strategy and connected platforms

- Developed the enterprise SAP technical roadmap and migration strategy.
- Led the technical design for SAP ITCM integration across BTP, S/4HANA and CRM; co-authored SAP customer documentation.

SAP Basis / Specialist

2020 - 2021

Maple Leaf Foods S/4HANA conversion

- Led the technical delivery of the S/4HANA brownfield conversion using the downtime-optimized conversion approach.
- Reduced business downtime from 68 hours to 8 hours and avoided a separate ECC EHP7 upgrade.

PROFESSIONAL EXPERIENCE / CONTINUED

Maple Leaf Foods

SAP Basis / Senior Analyst2016 - 2020

Integration, SAP BTP and secure access

- Led SAP IBP integration with S/4HANA, APO, BW and IAS/IPS; established SAP BTP services and connectivity.
- Delivered SSO and HTTPS across ABAP and Java systems using SAML, SPNEGO and Kerberos.

SAP Basis / Analyst2014 - 2016

Platform delivery and operations

- Installed, upgraded and supported more than 20 SAP products across a complex enterprise landscape.
- Provided third-tier support, coordinated the support queue and documented the core landscape architecture.

SAP Security / Analyst2013 - 2014

Identity, access and authorization

- Gathered security requirements and designed SAP roles, authorizations and access controls.
- Managed user access and resolved segregation-of-duties conflicts across the SAP landscape.
